

Cyber assessment & consultation

A complimentary service exclusively for [Victor Insurance Managers](#) Errors & Omissions and Technology policyholders.*

The threat of a cyberattack grows every year. Whether you own a business or are a member of a team that manages one, your company is at risk of a cyberattack and will need to consider steps to mitigate that risk. Thoughtful preparation against cyberattacks often can decrease your company's vulnerability to them. That's where a cyber assessment & consultation can help!

A complimentary cyber assessment & consultation service (valued at approximately \$397 CAN) is available exclusively for Victor policyholders.* This service is offered in collaboration with TGT Solutions, a firm specializing in cybersecurity. This service connects you with a cyber expert for a one-on-one consultation (via video or phone) to learn about the cyber exposures your business may be facing.

What can you expect during a cyber assessment call?

In 90 minutes or less[^], a cybersecurity expert will:

1. Questionnaire

Guide you through a series of questions about your company's cybersecurity operations and practices, including the policies that you currently have in place.

2. Scorecard

Provide you with a customized cyber assessment scorecard based on your responses to a series of questions. They'll walk you through your customized cyber assessment scorecard and answer any questions or concerns that you may have.

3. Recommendations

Give you recommendations on next steps and the additional cybersecurity service packages available to you. Victor policyholders* receive up to 30% off these packages.

4. Report

Last, but not least, provide you with a comprehensive cybersecurity report. This detailed formal report will help create the basis for a cybersecurity action plan for your company.

We want to make it easier for you to identify and address any potential cybersecurity gaps at your organization. Cybersecurity experts are here to help you ensure that your business is protected from cyberattacks.

To get started

Book your [cyber assessment appointment online](#). Select a time slot that's convenient for you and a calendar invitation will be sent to you by email. Click book—and you're all set to go!

For more information, [click here](#) or contact TGT Solutions (toll free): 1-866-606-6214.

*The cyber assessment & consultation service is available exclusively for Victor Errors & Omissions and Technology policyholders. Plans are underway to extend this new offering to Victor policyholders of other insurance coverages.

[^]Most calls will generally take 90 minutes. The duration may be longer or shorter depending on the need(s) of the company/client.

The cyber assessment & consultation service and additional service packages are provided solely by TGT Solutions. Victor cannot guarantee the satisfaction of these services. Any concerns with these services should be directed to TGT Solutions.

Victor only pays for the initial cyber assessment & consultation. Victor policyholders are responsible to pay for any other products or services they may wish to receive from TGT Solutions.

This document is for illustrative purposes only and is not a contract. It is intended to provide a general overview of the services described.

Please remember only the insurance policy can give actual terms, coverage, amounts, conditions and exclusions. Program availability and coverage are subject to individual underwriting criteria.
